A successful swim meet requires the assistance of many volunteers. The following list explains all of the volunteer roles that comprise a synchronized swim meet

	AFNIT
MEET MANAGEN	
Head Referee	 The Head Referee presides over the Figures events Reviews the script and the Draw (list of the order in which the athletes will compete) provided by the Meet Manager before the event begins Ensure he/she has all the draw sheets and scorers have their score sheets Ensures the name of the Figure is posted and visible to judges (changes the sign before each new Figure begins) Checks with the Scorekeepers to ensure they are ready Checks with the Judges to ensure they are ready Checks with the Judges to ensure they are ready Starts the event by following the script provided by the Meet Manager – which includes announcing that the competitor is beginning, the event, and the name of the Figure Announces the competitor number (according to the Draw) After the athlete has completed their Figure and starts to swim off the Head Referee asks the judges to "flash" their scores – Judges will hold up their score cards Reads out Judges' scores for the Scorekeepers in a consistent format, i.e. "six point one, six point zero, six point five" Always reads the scores in the same order – i.e. from the judge closest to you to farthest away (or vice versa) Controls the flow of the event - not too fast or too slow. We want to keep things moving along efficiently – but if the scorekeepers are having a hard time keeping up they will let you know and you will slow down the event so they can catch up. (Tip: I like to keep the tip of my pencil next to the number of the competitor that is performing their Figure – by doing this I don't lose track of what number we're on)
Head Scorekeeper	 Records scores on the Lead Scoring Sheet as they are read by the Head Referee The Head Scorekeeper records the marks across the page and then totals the scores (Note: calculators are provided – but some volunteers don't like the large format buttons – you can bring your own if you prefer) Ensures all three scorekeepers' totals are the same Asks the Head Referee to slow down if the scores are being read too fast Asks for a pause if the scorekeepers need to catch up After each Figure is completed by all competitors, signs the score sheet Gathers all three completed score sheets and puts them aside for the Meet Manager (or their designate) for pick-up. Sample of Head Scorekeepers sheet:

	Competitors are in place in front of the judges and start their Figure when the Head Referee announces their competitor number
	Note: The important thing is to make sure you start with the right competitor number and that they stay in order – again, more experienced athletes are used to this – the younger ones may need a little more shepherding. ©
Timer	Routines are timed to ensure they are within the maximum time limits prescribed for the event. Timers use a stopwatch (provided) or their Smart Phone to time the routines. Typically there are two or three timers. They confer after the routine and write the times on a Routine Time Chit, which is picked up by a Runner and submitted to the people recording the routine scores and times into the system.
	Three separate parts of the routine are timed.
	1) Walk on : There will be an orange marker across the bulkhead and the athletes will line up behind the marker. Start your stopwatch when <u>first step</u> is taken over the marker. Stop your stopwatch when the movement on the bulkhead stops. Record this time. Quickly hit Reset on the stopwatch (iPhone).
	2) Deck Time: Start your stopwatch when music starts. Hit "Split" (or tap "Lap" on your Smart Phone timer) when the <u>last person's</u> foot leaves the deck.
	3) Routine time: Because you hit "Split" (or "Lap") your stopwatch continued to time the routine. This is because the routine time <u>starts</u> when the music starts <u>ends</u> when the music ends, so you want the Deck Time included. Hit "stop" (or "Lap" on your Smart Phone) when the music stops.
	Confer with the other timers. Record Walk On, Deck Time (lap 1) and Routine Time (lap 2) on the Routine Time Chit provided. The competitor #, group, and event will already be completed on the chit.
	Hit Reset to get ready for the next routine.
	(Tip 1: If you're using a Smart Phone hit "Lap" instead of stop, just in case the music isn't actually over (if there is a pause in the music it's an easy mistake to think its over.)
	(Tip 2: Practice at home have your daughter show you her walk on and deck work and practice with the stopwatch (clock) on you iPhone.)
	Sample of a Routine Time Chit: - minutes are recorded on the left of the colon
	 seconds are recorded on the right of the colon

Officials' Hospitality	This person ensures that food/snacks are available for the judges' breaks and that water bottles are available for judges and on deck volunteers. It is best if food and drinks are bought, made, or ordered in advance. This is a one or two person per meet job depending on the size of the meet.							
Runner	Runners collect Score Chits from judges after each routine and bring them to the people at the scoring table, and they also collect the Routine Time Chit from the Timers.This is the only job that does not require the volunteers to be 18 years of age, so it's a great opportunity for siblings/friends to get involved.							
Awards	Prepares ribbons and medals (including labels indicating level and placement) for presentation by the Club President and/or Head Coach at meets that are hosted by Aquatica.
